WHAT IS A FREEZE BRAND?

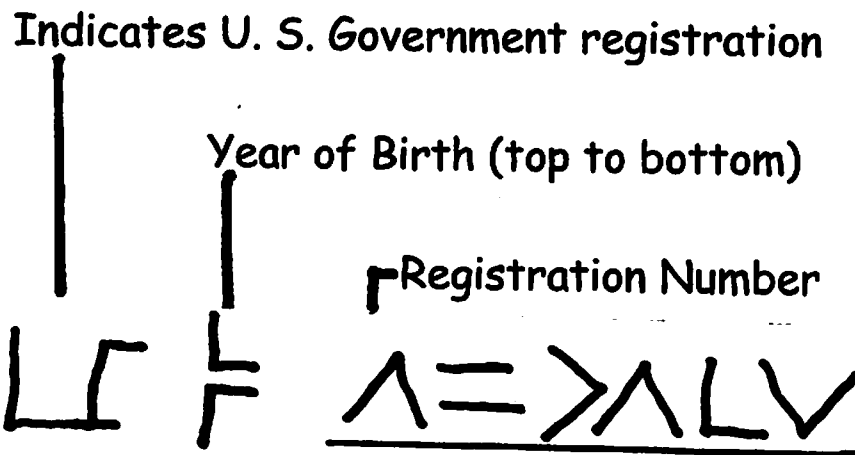

A permanent identification mark
 Made by using extreme cold.
 Freeze-branding irons are
 Chilled in liquid nitrogen before
 being applied to the burro or
 horse. The intense cold marks
 the brand site which then fills in
 with hair that has no pigment,
 resulting in a white brand. This
 process appears to be relatively
 painless to the animal.

HOW IS THE BRAND READ?

The brand is composed of angles
 that represent numbers and is
 read from left to right. This is
 known as Alpha Angle Code.

WHAT DOES THE BRAND MEAN?

HELP THE BURRO FIND THE BARN

RAC09

The *Burro Activity Booklet* is dedicated to the "Wild Ass Women" and the burros that share our lives. Our purpose is to raise awareness of the joy of owning wild burros and mustangs. Whether you trail ride, pack, show, parade, drive, or just want a companion, these animals can do it all. We will be successful if even one burro or mustang is adopted due to our efforts.

The *Burro Activity Booklet* is in honor of my burros, "Blue Wing Miss Scarlet" and "Shoshone Charlie Longlash." Their loving personalities and antics bring joy to my world. They have taught me about donkey time, donkey ways, and to avoid donkey shut-down at all costs.

Then of course, there's Tom, without whom none of this would be possible.....
